Dear Mr. Tolen:

Re: Modification Request for  
NPDES General Permit No. ING040037  
IDNR Permit Nos. S-0301  
Peabody Midwest Mining, LLC- Francisco Mine County  
East of Fairview Road and north of the town of Francisco  
Gibson County

Your NPDES permit Notice of Intent application received March 25, 2010, and supplemental clarifying materials received April 8, 2010, and April 9, 2010, requesting modification of the above-referenced permit have been reviewed. The submittals requested that coverage be reinstated for Outfall 006 (latitude 38°, 20', 56", longitude 87°, 24', 41"), discharging to an unnamed tributary to Keg Creek, and for Outfall 014 (latitude 38°, 21', 47", longitude 87°, 24', 50"), discharging directly to Keg Creek. Outfall 052 (latitude 38°, 21', 35", longitude 87°, 26', 44.5") is to be dropped from the permit. Outfalls 011 and 053 are to be modified so that the information on record reflects the correct latitude, longitude, and receiving waters. And the Mine Drainage Status of Outfall 042 (latitude 38°, 22', 23.4", longitude 87°, 27', 16.9"), which was mistakenly listed on the most recent modification to this permit as Reclamation status, is to be corrected back to Undetermined Status. The request has been processed in accordance with Section 402 and 405 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, et seq.), and IDEM's permitting authority under IC 13-15. Our office has determined that the addition of the new outfalls will not affect Peabody Midwest Mining, LLC's Francisco Mine's eligibility for coverage under the general permit rules outlined in 327 IAC 15-1 through 15-4 and 327 IAC 15-7, Facilities Engaged in Mining of Coal, Coal Processing, and Reclamation Activities, nor will the additional outfall points affect the site's ability to meet the reporting requirements. In addition our office has received confirmation from the offices of the Indiana Department of Natural Resources that Outfall 052 has been removed from the site. Therefore your petition to make the changes described above to existing NPDES permit ING040037 has been approved in accordance with Indiana Rules promulgated under 327 IAC15-7. In addition the above-referenced existing outfalls have been corrected to reflect their actual locations, receiving streams, and mine drainage statuses. Coverage for the facility will now include all outfalls listed on Attachment 1 to this correspondence.

The NPDES general permit identification number assigned to this facility in the previous approval will continue to apply, as will all other testing and reporting that are required under 327 IAC 15-7 using the forms that were sent to you previously. An additional form is attached to this letter for use with the new outfalls. You should duplicate it as needed. Should you need additional copies of this form it is also available on the internet at the following web site:

<http://www.in.gov/ide/5104.htm>

327 IAC 15-7 is also available on the internet at the following website:

<http://www.in.gov/ide/4087.htm>

Additionally, you will continue to receive the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at 317-232-8670.

These modifications shall become effective on **May 1, 2010**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under 327 IAC 15-7 for all remaining outfalls remains effective, and will expire on **April 30, 2014**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by approval under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

The Office of Environmental Adjudication will provide parties who request review of this approval with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our office at (317) 232-8703.

Sincerely,

Catherine Hess, Chief
